

Join the BRMS Meteorology Club!

Are you interested in the weather? Do severe weather events like hurricanes and tornadoes fascinate you? Do you want to learn some weather forecasting skills? Would you like to help others understand the weather?

If so, join the BRMS Meteorology Club! Together we will learn the basics of weather forecasting, investigate past weather events, monitor and track storms, analyze real-time weather data, raise awareness of severe weather events, conduct weather related experiments, and evaluate weather apps.
